

CYBERSECURITY

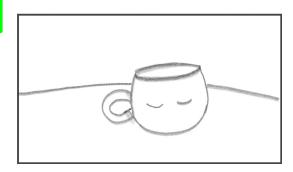

Sometimes, it's when we are most relaxed / V

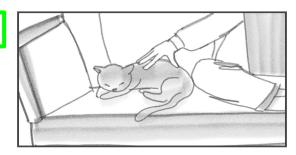

2

LARGE SHOT / INT DAY:

Travelling forward towards a woman sitting on her couch browsing the internet. **SPLINE**

at Home,
/ V

MEDIUM SHOT / INT DAY:

She caresses her cat that's quietly sitting next to her.

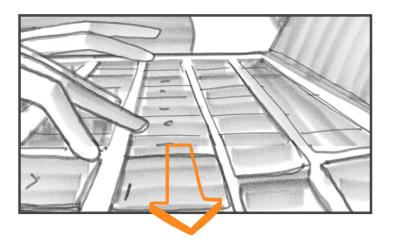

in front of our screens...

CLOSE SHOT / DAY INT:

Light front travelling (POV of the screen/ passes through it) on the face of the heroine still navigating.

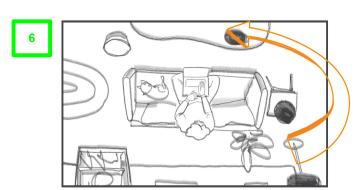

That we are actually most at risk

MACRO SHOT / INT DAY:

Travelling backwards on the keyboard where she

types text. **SPLINE**

Today, data theft and cyber attacks / ∨

have become more sophisticated / V

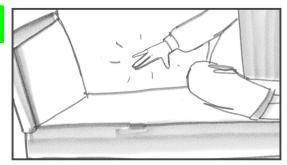

LARGE SHOT / INT DAY:

Camera movement via slider where we start in middle top shot on the couch. Objects around her begin to disappear. **SPLINE**

We make several movements via the slider on her in $\frac{3}{4}$ view. All the objects around her have disappeared. **SPLINE**

Sometimes with severe consequences, / V

8

And more frequent.

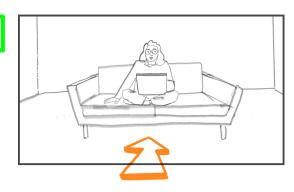

/ **V**

CLOSE SHOT / DAY INT:

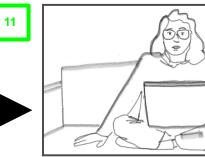

The mvt end on the sofa. She tries to pet her cat which also disappeared. **SPLINE**

So how do you react,

when you've become a victim of identity theft or cybercrime?

MEDIUM SHOT / INT DAY:

Beginning of the camera movement (vertigo effect) on our heroine who understands that she had her data stolen. **SPLINE**

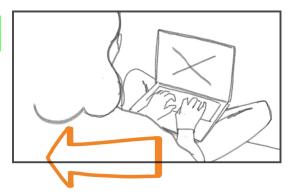

End of the camera movement (vertigo effect) on our heroine who understands that she had her data stolen. **SPLINE**

12

What can you do?

MACRO SHOT / INT DAY:

Cut to her eyes with the reflection of the screen. Big stress.

MEDIUM SHOT / INT DAY:

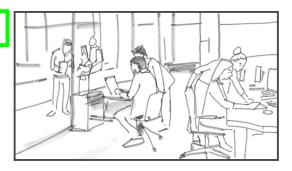

Horizontal travelling, she frantically types on her computer to try to solve the situation.

We go behind her shoulder. **SPLINE** / V

Having Iris Powered by Generali's identity

and cyber protection services,

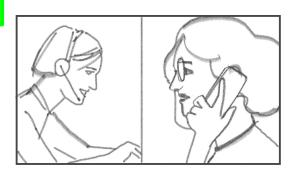

Horizontal travelling we find ourselves at Europ Assistance where an expert has detected maliciousness via his computer.

LARGE SHOT OF OFFICE / INT DAY

Wide shot of the room with the operator in the foreground.

We realize the size of the cell.

16

means 24/7/365 assistance 17

Expert support to help repair any damage

SPLITSCREEN / INT DAY:

The operator speaks with our heroine.

Face to face.

MEDIUM SHOT WITH TRAVELLING / INT DAY:

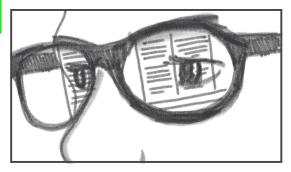

The operator walks down the hall with a colleague. She explains to him the problem with a tablet

and take actions to reduce future risk.

19

virus removal, correction of personal and financial information,

MEDIUM SHOT / INT DAY: A work meeting where we see people working together

CLOSE SHOT / INT DAY:

We see in the glasses of the operator information on his computer.

20

data recovery, and more...

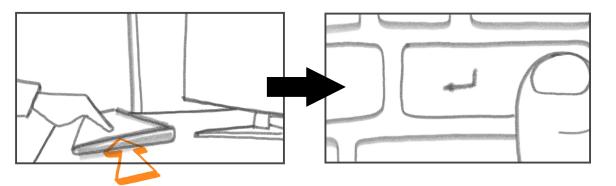

21

MEDIUM SHOT / INT DAY : The operator is in front of her screen to solve the problem. Whatever the need, an Iris expert can intervene for you

And even take control of your device

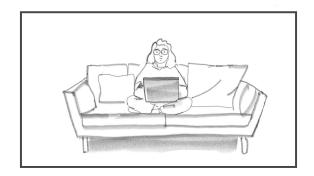

to help resolve the

problem

CLOSE SHOT / DAY INT:

Front Travelling on the operator's finger pressing the keyboard enter key, which resolves the issue. Transition on button press from the operator to the victim.

23

LARGE SHOT / INT DAY: We are back at our heroine place, who will see all her objects come back at once.

LARGE SHOT / INT DAY: Everything came back except the cat.

and protect everything you love.

LARGE SHOT / INT DAY: The cat reappears 1s later.
